SAHIL SANJAY SAWANT

M.C.A. - Computer Applications

Ph: +91-8779564379

Email: sahilsawant7120@gmail.com

Mumbai, Maharashtra, India - 400081

KEY EXPERTISE

Python | Git | RAG Architecture | Langchain | Gen AI | Quick Learner | Team Collabration | LangGraph | Agentic AI | LLM Gateway | Guardrails

EDUCATION

SIES College of Management Studies 2024 - 2026

M.C.A. - Computer Applications | Percentage: **73.69** / **100**

Mulund College of Commerce 2021 - 2024

graduation - BSC-IT (Full Time) | CGPA : **6.67** / **10**

Laxmibai english medium school and jr college, Mumbai 2021

12th | MSBSHSE | Percentage: **85** / **100**

Laxmibai english medium school and jr college, Mumbai 2019

10th | MSBSHSE | Percentage: **68.40** / **100**

INTERNSHIPS

WerqLabs 02 Feb, 2026 - 02 Jun, 2026

Python AI Intern

Key Skills: Python | NLP | RAG | Langchain | Langgraph | Gen AI | Machine Learning

• Strengthened advanced Python skills
• Developed ML models for regression, classification, tuned hyperparameters with GridSearchCV
• Implemented deep learning architectures (ANN, CNN) using TensorFlow/Keras; addressed overfitting via dropout and batch normalization
• Applied NLP techniques (NLTK, SpaCy, TF-IDF) for text preprocessing and classification tasks
• Built RAG pipelines using LangChain with vector databases (MongoDB index vector)
• Explored agentic AI system design using LangGraph — multi-agent orchestration and stateful workflows
• Integrated multiple LLM APIs (Groq, Gemini, HuggingFace)

PROJECTS

ResolveAI-Agentic-Rag 10 Sep, 2026 - 05 Oct, 2026

Key Skills: Python | RAG | Agentic RAG | Langchain | Langgraph | Pinecone | DigitalOcean | Groq

Project Link: https://github.com/sahil6098/ResolveAI-Agentic-Rag.git

- Developed an Agentic RAG-based IT support assistant using **LangGraph and Groq** to route queries, evaluate evidence, and generate grounded responses.
- Integrated **Pinecone vector database** with HuggingFace embeddings for semantic search across private company documents.
- Implemented **Tavily web search fallback**, evidence grading, query rewriting, and retry mechanisms to improve response reliability.
- Built **FastAPI REST APIs** and an HTML/CSS/JavaScript interface with document ingestion, source citations, and workflow tracing.

DataSage - AI Data Analyst 10 Apr, 2026 - 16 May, 2026

Team Size: 3

Key Skills: Python | MongoDB | FastAPI | Groq | Pyplot | Langgraph

Project Link: https://github.com/sahil6098/DataSage-V2

• Built DataSage V2, an AI-powered database analytics chatbot that converts natural language queries into actionable insights and visual reports.
• Integrated LLM-based SQL query generation with schema-aware query understanding for intelligent database interaction.
• Implemented multi-LLM fallback architecture to improve reliability and reduce API failure impact.
• Built backend APIs using FastAPI/Python with modular AI service architecture for scalable deployment.
• Optimized chatbot response quality using context-aware conversation memory and query refinement logic.

GenAI RAG Assistant 01 Mar, 2026 - 18 Mar, 2026

Team Size: 2

Key Skills: LangChain | MongoDB Atlas Vector Search | Streamlit | Python | PyMuPDF

Project Link: https://github.com/sahil6098/Genai-Rag-Assistant

• Implemented a query routing system that switches between RAG and live web search based on query intent (e.g., "latest", "current", "news")
• Built a full PDF ingestion pipeline — loading, chunking, embedding, and storing vectors in MongoDB Atlas
• Stored and retrieved session-based chat history in MongoDB for conversational memory
• Applied a domain guardrail to restrict responses to domain specific only

ASSESSMENTS / CERTIFICATIONS

AI-900: Microsoft AI Fundamentals , Microsoft

Provider: Microsoft
Aggregate: 88.90 / 100

Key Skills: Artificial Intelligence | Principle of machine learning | Computer Vision | Natural Language Processing

• Provided a comprehensive introduction to Artificial Intelligence (AI)
• Covered key concepts in:
o Artificial Intelligence

The Joy of Computing using Python, NPTEL2025

Provider: Indian Institute of Technology Madras
Aggregate: 62 / 100

Key Skills: Python Programming | Problem-Solving | Logic Building

• Introduced the basics of programming using Python
• Emphasized problem-solving and creative thinking
• Covered foundational concepts such as:
o Loops
o Functions
o Conditionals
o File handling

PERSONAL INTERESTS / HOBBIES

- Cooking , Bike Riding
